

IDEXX SUPPLIER CODE OF CONDUCT

Introduction

At IDEXX, we recognize the importance of credibility, integrity and trustworthiness to our continued success. These principles are part of our core values. Adhering to these principles will allow us to meet stakeholder expectations. The code of conduct serves as a foundation for our company's Supply Chain policies, procedures and guidelines and sets minimum requirements for business conduct. IDEXX expects its suppliers to operate in a socially and environmentally responsible manner.

The code of conduct has been developed based on the International Labour Organization (ILO)'s core conventions, the United Nations (UN) Guiding Principles for Business and Human Rights, and other industry best practices.

We expect suppliers to be familiar with this code. Please read this code carefully. Violations of this code may jeopardize the supplier's business relationship with IDEXX, up to and including termination. We reserve the right to audit supplier compliance with this code and to require a supplier to implement a corrective action plan.

Suppliers are required to follow any additional requirements contained in any other agreement, policy or procedure of IDEXX.

Scope of Application

The provisions set forth in this code provide the minimum standard expected of suppliers to IDEXX. The code provides the foundation for ongoing evaluation of our supply chain business partners and their social and environmental compliance practices. Suppliers are encouraged to exceed the standards of the code. In addition, as international and industry best practices continue to develop, IDEXX expects suppliers to take these into account as part of their social and environmental compliance programs. Suppliers are expected to encourage their own suppliers to meet the principles of this code. IDEXX understands that achieving some of the below mentioned standards would be dynamic rather than static process and hence encourages its suppliers to continually improve their workplace conditions accordingly.

Code of Conduct Guidelines

1. Compliance with Laws

IDEXX expects all its suppliers and their designated manufacturing facilities to fully comply with all applicable national and/or local laws and regulations. In addition, IDEXX's own code of conduct and policies must be followed where they exceed applicable legal requirements.
